

Commercial Hand Dryers

See the most common hand dryers that
ACTUALLY dry your hands from Excel Dryer!

The Excel XLERATOR® Hand Dryer

Still the Best Quality Dryer on the Market!

What should you consider when choosing a hand dryer to meet your needs? First, a good warranty. To clarify, try to find a brand with an industry leading warranty which means that brand has full confidence in their product. Brands like Excel Dryer, provide their XLERATOR® hand dryer with an industry-leading 7 year warranty. Second, Excel guarantees to have a 50% improved life span on their product. When was the last time you had a company increase their warranty and guaranty an increase of 50% for their product? It just does not happen, yet Excel Dryer is the only one to do it.

Made In America Certified

Did you know that Excel Dryer is the only hand dryer manufacturer to have products **Made in America Certified!** Furthermore, other hand dryer brands are only *assembled* in America. Excel Dryer has made it a personal mission to support American business. As a result, they've continued to keep their products American made for over 20 years.

XLERATOR® Hand Dryer Models

Original Series

Standard XLERATOR® hand dryers continue to be a dominant force in the world. Further improvements have been made to the internal design of XLERATORS in recent years. From sound and heat control to easy part replacements. Always the trusted hand dryer for any project!

HEPA Series

XLERATOR® HEPA has a pre-installed HEPA filter that removes 99.999% of viruses from the airstream! Excel Dryer is the only company to achieve this feat. Competitor's HEPA filters allow more germs and contaminants to reach a user's hand! XLERATORS are the top choice for hygiene.

eco Series

The ECO XLERATOR® hand dryers dry super fast even without the heating element. An XLERATOR® ECO can run on 500 watts which allows you to install multiple hand dryers on one circuit. This makes it more cost efficient for your facility.

XLERATOR® Accessories

More Accessories Than Any Other Hand Dryer!

Do you ever get annoyed with the water from your hands being splashed on the walls? Certainly that is annoying, so add an affordable stainless steel splash guard under the dryer to keep your walls clean. Or maybe you need your hand dryer recessed to meet ADA requirements? Well, the ADA recess kit is available!

Do you have a combo paper towel dispenser and waste receptacle in your wall which will leave a giant hole when you remove it? There is an answer for that, the X-Changer fills the hole with a stainless steel bodied recessing kit to keep your XLERATOR® ADA compliant and acts as a built in splash guard.

Furthermore, the XLERATOR® has customized, special image covers available; adjustable sound control; adjustable heat control; adjustable speed control; and a 1.1 nozzle for a reduced decibel rating.

No other hand dryer can meet all of your demands like an XLERATOR®!
