

Commercial bathrooms done right.  
That's our job.

"I have already spoken with my 4 PM's and they all know Newton is our new place no matter what."

~ Marcia, CA

# We Are Devoted to Our Customers

## Here to Help You Build, Remodel or Replace Your Commercial Space.

For over 20 years, Newton Distributing has specialized in commercial restrooms and building specialties. As a result, many of your favorite franchises, restaurants, and gyms had 100% of their restroom products supplied from Newton Distributing Company. Certainly shows how far our expert service and personal care keeps our customers coming back year after year. Because of our reliable service, our product catalog has been able to substantially grow with the years.

## Commercial Restrooms Done Right!

Safety products such as eye-wash stations, AEDs, and fire extinguishers are an important part of any building's operations. Another example are hospitals, schools, and hotels who all have wall protection throughout their halls. Moreover, fitness centers and gyms all need lockers, showers, water coolers, access panels, and more in their remodels. So, many of those top chains you visit are under our care for building specialty products across the country.
